## Software JUDIT-4 – Version 4.28 – Issue 07/13

Ladies and Gentlemen,

Together with this memo you are receiving the current Jungheinrich diagnostic tool software on this DVD.

#### **Changes and supplements:**

The following items have been improved or newly introduced in this issue:

- Miscellaneous projects revised
- **Project EJC\_Z\_2xx\_2010** replaced by two particular projects:
- EJC\_2xxz\_2010 and EJC\_2xx\_Bxx\_2011
- Selection Katliste.csv aligned

Updates of this file: <u>http://www.intranet.jungheinrich.de/3028.html</u> → JUDIT – JUDIT-4 – Dokumente – ReadMe\_4.28

#### Validity of the software JUDIT 4 - version 4.28 (07 / 13):

The software is valid until 2014-01-31 and will be replaced in time by version 4.29.

#### System requirements:

- Windows XP SP3 (SP2 is NOT sufficient!)
- Alternatively Windows 7 SP1 (does NOT apply all parts of "Zusatzdiagnose"!)
- XGA-graphics (High Colour 16 Bit with 1024 x 768)
- DVD-Drive
- Minimum 2.5 GB of free Hard Disk Space
- Security Control Client (>= Version **4.4.7.0**) installed and enabled
- Acrobat Reader installed, only Version 6.01 to 6.06 or X (10)!
- Current up to date Judit-4-license-file ("License\_JH.lfj")!

#### Good luck with the Diagnostics JUDIT-4.

Kind regards,

Bernd Glienicke

#### **Initial Setup on service laptop:**

### 1. Judit-4

- Note: the initial setup requires admin permissions! (For initial setup under control of JH-MTATools see page 4)
- Insert DVD and launch Windows Explorer.
- Right click **Judit-4-Installer.exe** to start installation.

• Mark "Update". Finally click button "Start".

1. Security Client Installation	
2. Adobe Installation	
3. Treiber Installation	
4. Judit Installation	
5. Verzeichnisrechte setzen	

• Mark "Full installation" if an older version has to be uninstalled (the content of the folder "C:\Program Files\Jungheinrich AG\Diagnose\Judit-3" will be deleted completely!). Finally click button "Start".

• End of installation is indicated by the following dialog box. Hit Button "**OK**" to exit.

ΟV	ollinstallation/					
@ U	Jpdate

5			ОК			

- Make sure that the Judit-4-license file "License\_JH.lfj" is present inside the folder "C:\Program Files\Jungheinrich AG\Diagnose\ Judit 3\Kunde", otherwise you will receive an error message "100" when starting Judit-4 !
- Note: JUDIT 4 must be installed to C:\Program Files\Jungheinrich AG\Diagnose\JUDIT-3 !

#### 2. Auxiliary Diagnostic Program and OEM-Software (see also "Zusatzdiagnose 4.27.pdf"!)

• For installation of the Auxiliary Diagnostic Program "**Zusatzdiagnose-Setup.exe**" has to be executed from the DVD.

• **Note:** during the installation of SICK software "CDS" you will be asked for restarting. Please click on button "NO" and restart only when installation has finally finished!

#### Installation via JH-MTATools:

- If JH-MTATools (> = version **1.00.0010**) is present on the service PC, installation is possible with only user permissions. No admin required.
- Insert DVD and open Windows-Start-Menu. Run "Judit 4 Setup" under Start / Program Files / JH-MTATools.
